PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience designing, building, and shipping production-grade web and mobile banking applications. Proven ability to architect scalable React and TypeScript solutions, integrate complex APIs, and deliver accessible, cross-browser-compatible interfaces that perform at enterprise scale. Driven by continuous learning and a track record of high first-time acceptance rates in fast-paced Agile teams.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks: React, Next.js, React Native, Tailwind CSS, Bootstrap

Back-End: Node.js, NestJS, C#, ASP.NET Web API

Testing: Cypress, Jest

Tools & DB: Git, MySQL, SQL

Practices: Agile/Scrum, REST API Integration, Secure Development, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Frontend Developer | Optimus Bank Nigeria *April 2025 - Present*

- Built and maintained a Corporate Internet Banking platform processing ₦1B+ in daily transactions for corporate clients, using React, TypeScript, and MySQL-backed APIs with 99.9% uptime.
- Architected and developed a Corporate Internet Banking Administrative platform enabling back-office teams to manage corporate user onboarding, configurable multi-level approval workflows, and corporate organizational hierarchy setup, reducing manual effort and turnaround time for corporate account administration.
- Contributed to the E-Channels Profile Management platform, delivering a centralized view of customer profile information, real-time financial activity tracking for compliance and fraud prevention, and performance-monitoring dashboards, in line with defined business and regulatory requirements.
- Designed and deployed Optimus Tech Aid, an internal ticketing platform that cut team response time by 40%, streamlining cross-functional workflows across a distributed Agile team.
- Enhanced the Retail Internet Banking platform with accessible bill payment functionality, improving customer engagement and transaction volume through WCAG-compliant UI patterns and cross-browser performance optimisation.
- Delivered Optiserv, a full-featured menu, reservation, and order management system across web and mobile (React Native), by translating product requirements into clean, reusable TypeScript components, with performance profiling and troubleshooting throughout to ensure production-ready quality.

Graduate Trainee, Technology School | Optimus Bank Nigeria *Jan 2025 - Mar 2025*

- Built a production-grade Branchless Mobile Banking App as capstone, achieving 98% Jest test coverage and passing full UAT, featuring JWT auth, real-time transactions, and multi-language support (English, Yoruba, Hausa).
- Led a 5-person team to on-time delivery via Git version control and Agile coordination across a 12-week full-stack programme covering React, NestJS, C#, and database management.

Frontend Developer (Internship) | Kodecamp Training *Mar 2022 - Jul 2022*

- Scaled Dizpoze, a waste management web app, to 200+ users by building responsive, cross-browser interfaces within a 4-person Agile team, participating in daily stand-ups and sprint cycles.
- Supported consistent sprint delivery by actively participating in stand-ups, sprint planning, and retrospectives, building strong remote collaboration and async communication habits across a distributed engineering team.

PERSONAL PROJECTS

TestOrbit | QA & Project Collaboration Platform | Next.js, C#, SignalR

- Designed the full system architecture end-to-end for TestOrbit, a platform connecting QA testers, developers, and product owners in a single workflow for issue tracking and project delivery.
- Built core functionality for testers to log bugs and for developers to update fix status in real time via SignalR, giving project managers visibility to track progress across projects.
- Implemented an AI-assisted feature that generates test cases from uploaded test plans, reducing manual test-case authoring for QA teams.
- Built per-project group chat so testers, developers, and product owners could communicate in context without leaving the platform.

ShopTackle | E-Commerce Platform

- Built ShopTackle, a full-featured e-commerce platform covering product catalog and search, shopping cart, and checkout, with integrated payment processing.
- Implemented order management and an admin dashboard for inventory, pricing, and order tracking.
- Handled the platform end-to-end, from data modeling and API design through to the customer-facing UI.

ADDITIONAL EXPERIENCE

Finance & Operations Associate | TradeGrid Digital Trading Company *Sep 2023 - Sep 2024*

- Improved workflow efficiency by 15% through process redesign and root-cause analysis; boosted customer satisfaction scores by 20% by translating client feedback into targeted service improvements.

Business Development Officer | Mark Calthers Consulting Limited *Dec 2024 - Jan 2025*

- Conducted competitive analysis and synthesized market intelligence into strategic recommendations that supported quarterly growth targets and new client acquisition.

EDUCATION

Bachelor of Science, Biochemistry - First Class Honours *2017 – 2023*

Federal University of Agriculture, Abeokuta (FUNAAB), Nigeria

CERTIFICATIONS

- Secure Coding and Threat Modeling for Banking Systems - EY, 2026
- AWS AI Practitioner Challenge: AI/ML Concepts, Generative AI & AWS Services - AWS / Udacity, 2025
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate - Oracle, 2025
- The Frontend Developer Bootcamp: HTML, CSS, JavaScript, React - Udemy, 2025
- Developing Secure Software - LinkedIn Learning, 2025
- Data Analytics Essentials - Cisco Networking Academy, 2023
- Version Control with Git - Meta via Coursera, 2023
- Data Protection Certification - Olumide Babalola Legal Practitioner, 2024
